

GAURAV SHANTIRAM CHAVAN

B.E. - Computer Engineering

Ph: +91-8421483314

Email: gaurav274chavan@gmail.com

Pune, Maharashtra, India, Maharashtra, India - 411018

LinkedIn: <https://www.linkedin.com/in/gaurav-chavan-1823211b9/>

PROFESSIONAL SUMMARY

I am a Computer Engineering student passionate about technology and development. I have a strong foundation in C, C++, and Java, and have solved 300+ coding problems in Java, strengthening my problem-solving and algorithmic skills. I am continuously learning and building projects in software development, AI, and web technologies.

KEY EXPERTISE

Java C C++ SQL UI/UX Python Git Github Data structure and Algorithms Spring Framework

EDUCATION

Dr. D. Y. Patil Institute of Technology

2023 - 2027

B.E. - Computer Engineering | CGPA: 8.33 / 10

HPT ARTS AND RYK SCIENCE COLLEGE , NASHIK

2022

12th | MSBSHSE | Percentage: 73.67 / 100

C. D. O. MERI HIGHSCHOOL , NASHIK, Nashik

2020

10th | MSBSHSE | Percentage: 94.60 / 100

INTERNSHIPS

Codec Technologies Pvt. Ltd.

02 Jan, 2026 - 02 Feb, 2026

Java Developer Intern

Worked as a Java Developer Intern at Codec Technologies where I gained hands-on experience in Java programming and software development concepts. Assisted in developing and debugging Java-based applications, learning object-oriented programming, problem solving, and basic backend development practices while completing assigned training tasks and projects.

PROJECTS

SMART INDIA HACKATHON 2025

01 Dec, 2025 - 14 Dec, 2025

Mentor: Dr. Jameer Kotwal and Mrs.Sunita Patil | Team Size: 6

Key Skills: Internet of Things 3D Printing AIML

Project Link: <https://github.com/Tungsten073/Vital-Radar>

SIH 2025 – Vital Radar (Smart India Hackathon Project)

Built an AI-powered radar system to detect human vital signs (heartbeat & respiration) through debris in disaster scenarios.

Applied signal processing and machine learning to achieve high detection accuracy (~85–95%) and reduce false positives.

Enabled faster rescue operations by improving detection time (40–60%) and response speed .

Designed a cost-effective, low-power solution to support scalable deployment for disaster response agencies.

PUBLICATIONS / RESEARCH / WHITE PAPERS

Wahan Mitra – Automatic Headlight Control and Vehicle Detection System for Enhanced Road Safety 21 Mar, 2025

Patent Publication / Research Innovation | The Patent Office Journal, India | No. of Authors: 7

Published a patent for “Wahan Mitra – Automatic Headlight Control and Vehicle Detection System for Enhanced Road Safety”, an intelligent automotive safety solution designed to automatically adjust vehicle headlight intensity based on environmental conditions and approaching vehicle detection. The system utilizes ambient light and infrared sensors with microcontroller-based automation to enhance night driving safety, reduce glare for oncoming vehicles, improve energy efficiency, and support accident prevention through smart real-time decision-making.

ASSESSMENTS / CERTIFICATIONS

Best Promising Startup Award At Cause'26

Provider: CMR University, Bangalore
Awarded "Best Promising Startup" at CAUSE 2026, CMR University, Bangalore, for presenting an innovative tech solution recognized for its real-world impact, scalability, and startup potential. Received appreciation from judges and university leadership, with encouragement to further develop the project into a startup venture through institutional support and incubation opportunities.

Smart India Hackathon 2025 – Project Participation - Finalist

Provider: Smart India Hackathon 2025 / Ministry of Education, Government of India
Developed Vital Radar for Smart India Hackathon 2025 problem statement SIH25214 , an innovative disaster response solution designed to detect and locate people trapped under rubble during emergencies such as earthquakes or building collapses. The system leverages advanced sensing technology, AI-based signal analysis, and real-time monitoring to assist rescue teams in faster victim identification, improving response time and increasing survival chances.

POSITIONS OF RESPONSIBILITY

Senior Event Production Manager at TEDxDYPPDU

Led event production for **TEDxDYPPDU** as Senior Event Production Manager from July 2025 to September 2025, overseeing speaker coordination, stage operations, logistics, scheduling, and cross-team collaboration to successfully execute a large-scale TEDx event with seamless on-ground management.

Junior Event Production Manager at TEDxDYPIET,Pimpri

Worked as a **Junior Event Production Manager at TEDxDYPIET Pimpri**, from July 2024 to August 2024 supporting event production, speaker coordination, logistics, stage management, and on-ground execution to help deliver a seamless TEDx event.

Design Lead at Acunetix 13.0

Worked as the **Design Lead for Acunetix 13.0**, overseeing branding, promotional creatives, event graphics, and overall visual communication for the initiative. Led the creation of engaging digital and print design assets, ensured a consistent brand identity across all platforms, and collaborated with cross-functional teams to deliver impactful visuals that enhanced audience engagement and event outreach.

PERSONAL DETAILS

Gender: Male	Date of Birth: 27 Sep, 2004
Marital Status: Single	Permanent Address: Nashik, Nashik, Maharashtra, India - 422003
Current Address: pune, Pune, Maharashtra, India, Maharashtra, India - 411018	Phone Numbers: +91-8421483314, +91-8421483314
Emails: gaurav274chavan@gmail.com , gaurav274c@gmail.com
